

CECW-PE, PN, PS or PW as appropriate, of an impending action which may impact on another country and for which environmental studies may be necessary to determine the extent and significance of the impact. The district commander will inform CECW-P whether entry into the country is necessary to study the base condition.

(2) CECW-P will notify the State Department, Office of Environment and Health (OES/ENH) of the district commander's concern, and whether a need exists at this point to notify officially the foreign nation of our intent to study potential impacts. Depending on expected extent and severity of impacts, or if entry is deemed necessary, the matter will be referred to the appropriate foreign desk for action.

(3) As soon as it becomes evident that the impacts of the proposed actions are considered significant, CECW-P will notify the State Department. The State Department will determine whether the foreign embassy needs to be notified, and will do so if deemed appropriate, requesting formal discussions on the matter. When the International Joint Commission (IJC) or the International Boundary and Water Commission, United States and Mexico (IBWC) is involved in a study, the State Department should be consulted to determine the foreign policy implications of any action and the proper course of action for formal consultations.

(4) Prior to public dissemination, press releases or reports dealing with impact assessments in foreign nations should be made available to the appropriate foreign desk at the State Department for clearance and coordination with the foreign embassy.

§ 230.26 General considerations in preparing Corps EISs.

(a) *Interdisciplinary preparation.* See (40 CFR 1502.6).

(b) *Incorporation by reference.* To the maximum extent practicable, the EIS should incorporate material by reference in accordance with 40 CFR 1502.21. Footnotes should be used only where their use greatly aids the reader's understanding of the point discussed. Citation in the EIS of material incorporated by reference should be

made by indicating an author's last name and date of the reference in parentheses at the appropriate location in the EIS. The list of references will be placed at the end of the EIS. Only information sources actually cited in the text should appear in the reference list. The reference list should include the author's name, the date and title of the publication, personal communications and type of communication (e.g., letter, telephone, interview, etc.).

**APPENDIX A TO PART 230—PROCESSING
CORPS NEPA DOCUMENTS**

NEFA documents for Civil Works activities other than permits will be processed in accordance with the instructions contained in this appendix and applicable paragraphs in the regulation.

1. Feasibility Studies

a. *Preparation and Draft Review.* During the reconnaissance phase, the district commander should undertake environmental studies along with engineering, economic and other technical studies to determine the probable environmental effects of alternatives and the appropriate NEPA document to accompany the feasibility report. This environmental evaluation should be continued in the feasibility phase, and if the need for an EIS develops the district commander will issue a notice of intent as early in the feasibility phase as possible. Following the guidance in ER 1105-2-10 through 60, the district commander will prepare a draft feasibility report combining or integrating the draft EIS or EA and draft FONSI (as appropriate), or a separate NEPA document and circulate it to agencies, organizations and members of the public known to have an interest in the study. Five copies of the draft EIS and report will be mailed to Director, Office of Federal Activities (A-104), Environmental Protection Agency, 401 M Street SW., Washington, DC 20460 for filing after distribution has been accomplished. After receipt and evaluation of comments received, the district commander will prepare the final report and EIS or EA and FONSI and submit it to the division commander for review.
